- No special tools required

Benefits

- Easy maintenance
- Economical service parts
- Handles a variety of pumping needs
- Rotors and seals can be changed without removing pump head

MADE IN USA

WHY SPX?

The APV brand R-Series pumps are an excellent economical choice for Clean-Out-of-Place (COP) applications. The R-series pumps have limited parts facilitating easy tear down and assembly and the rubber rotors provide extremely good efficiencies to pump thin or aerated products. SPX offers the complete range of Positive Displacement Pumps to meet your needs. When it comes to know-how, experience and product range within the field of hygienic pumps, you won't find a better business partner than SPX.
